

Course Syllabus

ECO6234 International Trade

Introduction

SISUSP is a short-term course-learning program for international students and delivered by Xianda College of Economics and Humanities Shanghai International Studies University. Students get credits transferred towards their home institution when meeting academic requirements in three weeks of study.

Students also are inspired to connect with the local and international community in this program through practical learning that focus on cross-culture, Asian business, rapid development of cities and some of the top enterprises in China.

Prerequisite	Prior knowledge in fundamental Microeconomics subjects is required for taking this course.
<p style="text-align: center;">*Important* Academic Integrity</p> <ul style="list-style-type: none">• Academic integrity is <i>'the expectation that teachers, students, researchers and all members of the academic community act with: honesty, trust, fairness, respect and responsibility.'</i> Breaching academic integrity is also known as 'academic misconduct' or 'academic dishonesty'.• All higher education students are expected to uphold academic integrity during their studies. An important way of upholding your academic integrity is by contacting your teachers or your school if you are having study problems and working with them on solutions. Studying and learning provides the knowledge expected of a graduate from your course but any form of cheating means that you could miss important professional knowledge and practice that you need to succeed in your future career.• Academic dishonesty or cheating includes acts of plagiarism, misrepresentation, fabrication, failure to reference materials used properly and forgery. These may include but are not limited to claiming the work of others as your own, deliberately applying false and inaccurate information, copying the work of others in part or whole, allowing others in the	

course to copy your work in part or whole, failing to appropriately acknowledge the work of other scholars/authors through acceptable referencing standards, purchasing papers or writing papers for other students and submitting the same paper twice for the same subject.

- The foundation of good academic work is honesty. Maintaining academic integrity upholds the standards of the University.
- The responsibility for maintaining integrity in all the activities of the academic community lies with the students as well as the faculty and the University. Everyone in this community must work together to ensure that the values of truth, trust and justice are upheld.

Academic dishonesty affects the University's reputation and devalues the degrees offered.

- The University will impose serious penalties on students who are found to have violated the Policy. The following penalties may be imposed: Expulsion, Suspension, Zero mark/fail grade, Marking down, Re-doing/re-submitting of assignments or reports, and Verbal or written warning.

Course Overview

The broad aim of the course is to give students an increased awareness of current issues in international trade and a framework for thinking about international trade policy. It reviews models of international trade, starting with the Ricardian model and concluding with the new trade models. It also examines international trade policies through reference to relevant case studies. Its main objective is to help students develop a comprehensive understanding on major trade issues around the world and the effects of globalization on trade. It focuses on analysing the gains from trade, the changing patterns of trade, the income distributional consequences of liberalising foreign trade, the relationship between trade, investment, and economic growth, and the reasons for and consequences of trade policies.

Course Goals

- By the end of this course you should be able to:
- Compare at the level of formal analysis, the major models of international trade and be able to distinguish between them in terms of their assumptions and economic implications.
- Employ the principle of comparative advantage and its formal expression and interpretation within different theoretical models.
- Apply partial equilibrium and (where required) general equilibrium models in analysing the economic effects of (a) trade policy instruments such as tariffs, quotas, export subsidies, (b) retaliatory measures such as anti-dumping duties and countervailing duties and (c) the creation of regional trading arrangements such as free trade areas, customs unions and common market.
- Distinguish and critically analyse the main arguments for protection and conversely be able to critically evaluate the relevance and realism of arguments for free trade, taking into account the costs and benefits of trade policy measures on different sections of the community and the implications for the formulation of trade policy.
- Identify major recent developments in the world trading system, and be able to critically analyse key issues raised both by the current round of WTO negotiations and by the spread of regional trading arrangements.
- Develop communications skills through the presentation of your work, interactions during tutorial sessions, and appropriate use of the discussion board.

Class Topics

Day	Chapter
1	Introduction of Global Economy: The gains from trade
2	The Ricardian Model

3	The Specific Factors Model

Assessments:

Class participation 10%

Class works 20%

Critical review 20%

Final exam 50%

Preparation/Participation and In-class Activities

Throughout the course, we will complete various in class activities. These exercises are tailored towards helping you further understand and apply the key concepts covered in the textbook. Class attendance and participation in session activities are required and rated. There is much more material in your reading assignments than we have time to discuss in class. In-class activities will delve into the most important issues. No makeup assignments are allowed.

Grade	Grade description	Grade scale %
HD	High Distinction	100 - 85
D	Distinction	84 - 75
C	Credit	74 - 65
P	Pass	64 - 50
F	Fail	49 and below

Grade Descriptors:

High Distinction 85-100

- Outstanding work that comprehensively attains the required outcome(s) showing superior knowledge, understanding, analysis, critical interpretation, presentation, and originality. Work is well-written and stylistically sophisticated, including appropriate referencing, clarity, and some creativity where appropriate. All criteria addressed to a high level.

Distinction 75-84

- Excellent work that substantially attains the required outcome(s) showing a high level of knowledge, understanding, analysis, critical interpretation, presentation,

and some originality. Treatment of material evidences an advanced understanding of ideas Demonstration of initiative, complex understanding, and analysis Work is well-written and stylistically strong. All criteria addressed strongly.

Credit 65-74

- Work that soundly attains the required outcome(s) showing a good level of knowledge, understanding, analysis, presentation, and some evidence of critical interpretation. Treatment of material displays a good understanding of ideas. Work is well-written and stylistically sound, with a minimum of syntactical errors. All criteria addressed clearly.

Pass 50-64

- Work that satisfactorily attains the required outcome(s), with adequate knowledge, understanding, analysis, and presentation. Treatment of material indicates a satisfactory understanding of ideas. Work is adequately written, with some syntactical errors. Most criteria addressed adequately.

Fail 0-49

- Work that fails to attain the required outcome(s), lacking in basic knowledge, understanding, analysis, and presentation. Treatment of ideas indicates an inadequate understanding of ideas Written style inappropriate to task; major problems with expression. Most criteria not clearly or adequately addressed.

About Xianda College of Economics and Humanities Shanghai International Studies University

Xianda College of Economics and Humanities, Shanghai International Studies University, was established in 2004 and was one of the first full-time independent institutions of higher education in Shanghai approved by the Ministry of Education. It now has two campuses: Hongkou and Chongming. Hongkou Campus is located in the heart of northeast downtown in Shanghai, adjacent to Shanghai International Studies University, whereas Chongming Campus is situated in Chenjia Town, Chongming District, with a beautiful neoclassical Tuscan style architecture and unique ecological environment complementing each other.

Benefiting from the support of the excellent teaching faculty and expertise in foreign language teaching and research of Shanghai International Studies University, we have built a talent cultivation system. It lays a strong emphasis on language learning, economics subjects and coordinated development of other disciplines (professional learning and English). Currently, it offers 22 undergraduate programs in six main fields of literature, law, economics, management, education and art, with approximately 8000 full-time undergraduate students.

Adhering to the open mode of running the college, we take the path of globalization of higher education by introducing advanced educational concepts and management modes adopted in leading domestic and foreign universities. We have introduced talented returnees, accounting for more than 50% of the teaching faculty, and established solid, friendly and cooperative partnerships with over 100 prestigious universities in 16 countries and regions, including the United Kingdom, the United States, Canada, Australia, Germany, France, Spain, Switzerland, Japan, Korea, Egypt, Jordan, the United Arab Emirates, Singapore, Hong Kong, China and Taiwan, China. Through programs of credit transfer, co-operative internship, student exchange, government scholarship, dual bachelor's degrees and combined bachelor's and master's degree programs, it offers students with a variety of overseas opportunities to involve them in different international contexts to develop their global outlook and to improve their cross-cultural communication skill.

We embrace students' individuality and enhances their foreign language skills by offering a varied, wide selection of English or bilingual classes.
